Work Experience

May 2024 - Jul 2024

Video Sharing App

- Utilized React Native to build a feature-rich video-sharing application that integrates Appwrite for backend services,
- ensuring robust authentication, smooth media uploads, and dynamic content management.
- Leveraged the Animatable library to create captivating and fluid animations across the app, enhancing user experience with
- smooth transitions, animated lists, and interactive elements.
- Designed and developed a responsive user interface that provides seamless performance and adaptability across various
- devices and screen sizes, ensuring a consistent and optimal user experience for all users.

- Blog Application , EJS, Node.js, Express.js, MongoDB Feb 2024 - March 2024
- Developed a blog application using Node.js, Express.js, and MongoDB with EJS for server-side rendering, enabling dynamic
- content delivery.
- Implemented secure user authentication and authorization, allowing personalized content management and CRUD
- operations for blog posts.
- Utilized MVC architecture for scalable and maintainable code, enhancing the user experience with efficient data storage and
- retrieval using MongoDB.
